

## NEW Submersible Landscape Light

Kasco is proud to introduce our NEW Submersible Landscape Light. This high quality light includes a solid bronze fixture housing, stabilizing base for installation, 20' of underwater rated electrical cord, bracket and screws for multi-angled positions, added sealing engineering, and thermal overload protection. The light also carries an ETL listing and approval! The light needs to be submerged at least 1", but can support up to a 75W MR-16 Halogen bulb. The Submersible Landscape Light will illuminate and enhance your water feature or landscape with breath taking and dramatic effects.
