

WATERGLOW LIGHTING

Give Your Display Life After Dark

Illuminate your fountain or surface aerator into the night with Kasco WaterGlow Lighting. Available in composite or stainless steel housings and in several color options, these versatile LED lights are a perfect addition to your display and will provide the exciting atmosphere you're looking for. These LED lighting systems are designed to be energy efficient so you can enjoy your vibrant displays without worrying about the electric bill.

- Fixtures feature durable housings for water-tight operation
- Included mounting brackets optimize fountain illumination (puck lights do not have brackets)
- Universal lighting system available for non-Kasco fountains
- 1 year warranty on LED puck systems
- 2 year warranty on LED composite, LED stainless steel, RGB, and universal systems

RGB LED Composite - (RGBC5)

Kasco RGB lighting systems allow you to choose from 9 colors, 3 rhythmic sequencing patterns, and 5 brightness levels. These kits can even be set to music by using a 3.5mm to 3.5mm auxiliary audio cord and any music playing device with a standard AUX output.

- Choose from orange, warm white, white, cyan, blue, magenta, green, yellow and red
- Offered as 3 fixture (1/2-1HP units) and 6 fixture (2-3HP) kits
- Includes fixtures, power cord, controller, 3.5mm audio connector and RGB control panel
- Runs on 24Vdc at just 5W per fixture

LED Composite - (LEDC11)

Designed with a 1-piece composite housing and ultrasonic welded lens, these LED lights are some of the most durable on the market. Each kit includes waterproof caps allowing customers to leave the main power cord in the water when fixtures are pulled for scheduled maintenance or winter storage.

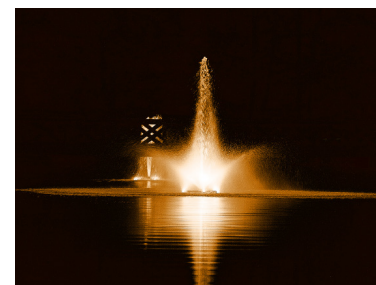

- Displays white (3000K) and includes red, green, blue and amber lenses and lens caps
- Offered as 3 fixture (1/2-2HP) and 6 fixture (3-7.5HP) kits
- Includes fixtures, power cord, lenses and lens caps
- Runs on 120Vac 60Hz power and each 11 watt fixture is rated at 910 lumens

LED Stainless Steel - (LEDS19)

Kasco's rugged lighting systems feature stainless steel housings that will withstand harsh aquatic environments, such as salt water. Each fixture is daisy chained together for easy installation. These kits are UL / CSA listed.

- Displays white (3000K) and includes red, green, blue and amber lenses and lens caps
- Offered as 3 fixture (1/2-2HP) and 6 fixture (3-7.5HP) kits
- Includes fixtures, power cord, lenses and lens caps
- Runs on 120Vac 60Hz power and each 19 watt fixture is rated at 1,700 lumens

LED Puck Lights - (LED8012W)

This system features a set of 8 LED puck lights designed to nest into the unit float. These efficient, low-voltage white lights will extend the enjoyment of your display.

- Comes standard as classic white
- Offered for xStream, 1/2-3/4HP J and 1/2-3/4HP VFX series fountains
- Includes puck lights, power cord and junction box
- Entire light ring is 7 watts

Universal Lighting for Non-Kasco Fountains - (LED4C11)

Kasco's 4 fixture lighting kits were designed so that our lights will fit on non-Kasco fountains. 4 fixture kits are offered as LED Composite, LED Stainless Steel and RGB.

- LED composite and stainless steel kits display white and include red, green, blue and amber lenses and lens caps
- RGB kits include white, warm white, red, green, blue, orange, yellow, cyan and magenta color options, along with color sequencing
- Includes underwater rated power cord and mounting brackets, RGB kit includes control panel
