Product Notes:

1. Prices in bold have quick disconnect installed on power cords.
2. Part number is the model combined with cord length (ex. 3400HD150).
3. De-icers should be placed 4-6 ft. below the surface, and 1 ft. off the bottom.
4. Mounting option and control panel sold separately.
5. All Kasco De-icers ship completely assembled. No hardware is needed unless using an optional Universal Mounting Kit.

De-icers create areas of open water
which could be dangerous to people
or animals nearby. Consider posting
a warning sign near the area.

NEVER enter the water with
electrical equipment connected
and / or in operation.

DE-ICER ACCESSORIES

MOUNTING OPTIONS

Secure your Kasco De-icer to a dock or similar structure using the included ropes or optional mount kit. Choose depth, angle, and direction of water flow to achieve desired results. Use an optional U-bolt Kit with the Universal and Industrial Mount to attach the base plate to dock piling without drilling into structure. See page 65.
