Surface Aerators

SURFACE AERATORS

Surface Aerators push high volumes of water into the air increasing the overall health of your pond or lake and keeping it thoroughly mixed. This introduction of oxygen and water movement breaks up stratification, eliminates odors, discourages algae growth, and promotes a healthy aquatic environment.

HydraForce™ Agitators

LIFT STATION AGITATORS

HydraForce™ Lift Station Agitators break up layers of F.O.G. (fat, oil, and grease), reduce odor, and prevent corrosion and blockages.

These mixing systems include a mounted compressor that forces air through tubing lines to a suspended single-loop diffuser. This diffuser continuously releases air bubbles that rise to the surface, mixing large volumes of water to solve common wastewater issues.
