WATERTIGHT OPERATION

WARRANTY

Stainless Steel LED: 3 years
Composite LED: 2 years
RGB LED: 2 years
RGBW LED: 5 years

NOTE:

1. Kits available in several cord lengths.

AQUATICLEAR™ CIRCULATORS

This clog-resistant circulator produces water movement to keep docks, marinas, canals, shorelines, and other areas clear of floating weeds, algae, and debris. With our Clean Current Technology™ (patent pending), AquatiClear features a crown-like composite prop guard allowing for continuous operation and less maintenance.

Shallow Water Install Kits allow AquatiClear to be installed in shallower water. Purchased separately.

- 1/2, 3/4, & 1HP, 120V and 208 - 240V, single phase
- Includes unit and power cord. Mounting options and control panels available
- Unit only, Horizontal Float Kits, and Universal Mount Kits available
- Complete packages are ETL Listed to UL and CSA Standards

CROWN-LIKE PROP GUARD FOR CLOG-RESISTANT OPERATION

POWER CORD LENGTHS UP TO 400 FT.

SOLAR-POWERED OPTIONS AVAILABLE

2-YEAR WARRANTY

NOTE:

1. Without Shallow Water Install Kit, place AquatiClear at least 1.5 ft. below surface.

ROBUSTAIRE™ DIFFUSED AERATION

RobustAire provides aeration benefits in water 8 ft. and deeper. Air from an on-shore compressor creates underwater movement to increase water quality.

NEW Medium and Large cabinets feature an innovative take on airflow called Aire-Guard Cabinet Technology™ (patent pending). These new systems have lower internal temperatures, cleaner interiors, and can withstand harsh environments.

- Includes 1-12 diffuser assemblies, compressor(s), and compressor mounting option*
- Dual-loop diffuser assembly includes strain relief and lands upright every time
- Longest-lasting, most efficient diffuser on the market

NO ELECTRICITY IN WATER

WARRANTY

Compressor: 3 years
Tubing: 15 years
Diffuser: Lifetime
Cabinet: Lifetime

DIFFUSER MEMBRANE WILL NOT CLOG

34% QUIETER THAN PREVIOUS MODELS

SOLAR-POWERED OPTIONS AVAILABLE

* Several sizes and configurations available to suit a variety of needs. Contact Kasco for details.

SURFACE AERATORS

Kasco Surface Aerators push water into the air to introduce oxygen and increase water quality. With its efficient design, these units are the most dependable on the market.

- 1/2 - 5HP, 120V and 208 - 240V, single and three phase
- Proven performance for continuous, supplemental, or emergency aeration
- Complete packages are ETL Listed to UL and CSA Standards

OPTIONAL LIGHTING PACKAGES

WARRANTY

1/2, 3/4, & 1HP: 2 years
2, 3, & 5HP: 3 years*

SOLAR-POWERED OPTIONS AVAILABLE

*Optional 5-year warranty available.

NOTE:

1. Pair with Kasco Pond Probiotics for maximum results.
2. Optional double-mechanical seal and stainless steel domed top available on three phase units.

DE-ICERS

Protect your waterfront property with the #1 performing de-icer. By pulling warmer water up, Kasco De-icers create an opening at the water's surface keeping boats, docks, and other in-water property safe from damaging ice buildup. Kasco units create more open water and more protection for your property.

CERTISAFE

Maintain and improve your drinking water with Kasco's CertiSafe™ Active Tank Mixer. By creating strong, consistent water movement, CertiSafe Mixers quickly and evenly circulate water, eliminating common water quality problems and protecting tanks from corrosion and ice damage.

POND PROBIOTICS

Improve your water clarity and quality with Pond Probiotics. Simply toss into the water and billions of bacteria quickly reduce muck, neutralize odors, and clean the water. This unique formula is a safe and non-chemical approach to water quality improvement.

HYDRAFORCE

HydraForce Lift Station Agitators break up layers of F.O.G. (fat, oil, and grease) reduce odor, and prevent corrosion and blockages. These systems use an air compressor and dual-loop diffuser to continuously release air bubbles to the surface, solving many wastewater issues.
