

UNIT MOUNTING OPTIONS

MOUNTING KITS

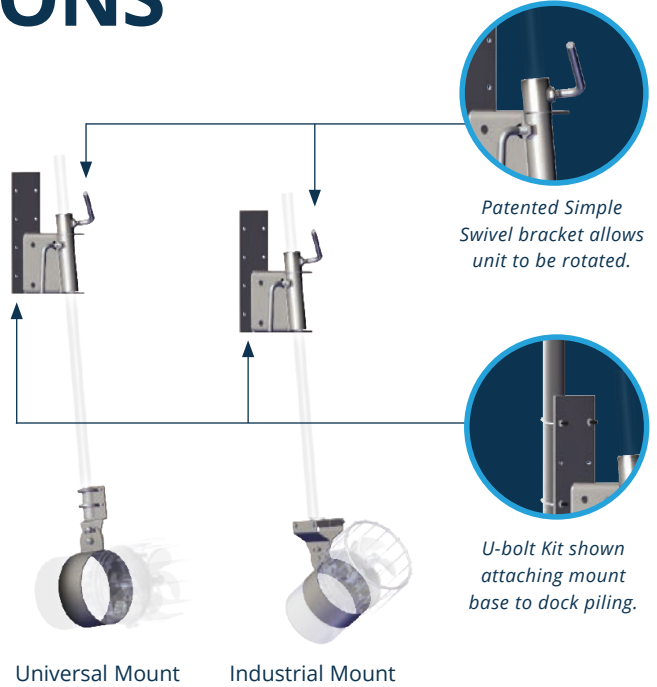

Secure your Kasco AquatiClear or De-icer to a dock, pier, walkway, or other in-water structure. Choose your depth, angle, and flow of water to achieve desired results. Optional U-bolt Kit allows mount kit to attach to dock piling without drilling into structure. Mounts include a lifetime warranty.

Universal Mount Kits

- For 1/2, 3/4, and 1HP units
- Requires 1 in. / 25 DN nominal pipe

Industrial Mount Kits

- For 1/2, 3/4, 1, and 2HP units
- Requires 1.5 in. / 40 DN nominal pipe

PART #	DESCRIPTION	UNITS COMPATIBLE	MSRP
243478	Universal Mount with patented Simple Swivel bracket (Includes all mount assembly hardware)	1/2, 3/4, and 1HP units	\$372
243479	Industrial Mount with patented Simple Swivel bracket (Includes all mount assembly hardware)	1/2, 3/4, 1, and 2HP units	\$616
997108K	U-Bolt Kit (each kit includes 2 u-bolts and associated hardware)	1/2, 3/4, and 1HP units	\$18

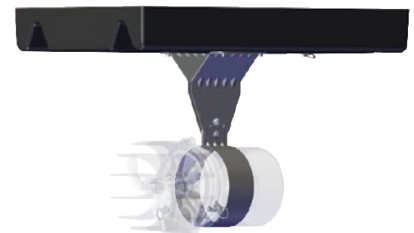

Product Notes:

1. Pipes should not exceed 10 ft. and can be threaded or unthreaded.
2. Universal and Industrial Mounts require (8) 5/16 in. lag screws to attach mount base to dock. If using a U-bolt Kit, lag screws are not needed.
3. Industrial Mounts are recommended for units in harsh environments.
4. Universal Mounts require (1) U-bolt Kit, Industrial Mounts require (2) U-bolt Kits.

HORIZONTAL FLOAT

Suspend your Kasco AquatiClear below the water’s surface and safely anchor it to shore. Using stainless steel hardware and components, the float accommodates 1/2, 3/4, and 1HP units. Includes a 3-year warranty.

- 3 tie-down loops for secure installation
- Power cord strain relief clip
- 3 angles of orientation

PART #	DESCRIPTION	UNITS COMPATIBLE	MSRP
213001	Horizontal Float with tie-down loops	1/2, 3/4, and 1HP units	\$500
